

# Spring into Easter

When your child returns to school, we will spend time reconnecting and maximizing on the social interaction opportunities that have been missed by many children. We will begin a new topic... 'Spring into Easter.' The learning outlined below will provide ample opportunities for teamwork, collaboration and fun!

## Geography

We will improve our mapping skills, so we succeed at the Great Easter Egg Hunt!

We will use locational and directional language to describe the location of features and routes on a map of the school grounds.

We will devise a simple map.

## Design Technology

Before designing and making an Easter bunny sock puppet we will explore how to securely attach the features onto the sock and how to ensure the ears stick up.

## Religious Education

We will explore the question...

*Why does Easter matter to Christians?*

## Computing

We will design Easter cards using digital pictures.

## PE

### Gymnastics

In gymnastics we focus on balance, speed and travel.
